FLETCHER'S NEW YORK CITY SOUVENIRS

SERIES NUMBER FOUR • [21 SUBJECTS]

Apartment Houses, Hotels and Residences

THE apartment houses of New York are exceedingly large and the interior fittings are very expensive and magnificent. Several of these buildings are from 10 to 17 stories high, located on choice sites, and cost from $2,000,000 to $3,000,000 each. The 350 hotels of New York City excel in accommodation and magnificence any hotels in any city in the world, and in many of them upwards of 600 guests are more than luxuriously housed. One of these hotels cost about $12,000,000 and is very grand. It can accommodate nearly 1,500 guests, and employs 1,400 servants. No city in America has finer private residences as New York. These houses are constructed of the best material, finished and spacious, and contain all the luxuries and comforts that brains and money can produce. The estimated cost of one of these residences is $7,000,000.
